INTRODUCTION

How the dinosaurs' journey begins...

Littlefoot™ and his friends are playing in the Great Valley™ one morning when they discover a Sharptooth™ egg that some Egg Stealers have abandoned in a cave. Realizing that the fearsome Sharptooths will soon come looking for their egg, the prehistoric pals decided they must return it to a nest in the Great Beyond™.

The friends carry the egg out of the Great Valley and drop it safely into a nest, just as an angry Sharptooth mother arrives with a roar. The young dinosaurs scatter in fright and lose each other in the Great Beyond. Now, with your help, each dino must find his or her way back home.

You can play the part of Littlefoot™, Cera™, Ducky, or Spike as you travel through strange new worlds, searching for a way back to The Great Valley. Petrie™, your flying friend, will help you through the 20 levels of your journey. Along the way you'll encounter puzzles, obstacles and other challenges that stand in your way. Avoid danger by following Petrie's instructions, and collect Treestars™ as you navigate through each level.

SETTING UP A GAME

First, insert The Land Before Time: Return to the Great Valley disc and close the disc cover. Turn the PlayStation® game console ON with the POWER button.

After the introduction, the game checks for a MEMORY CARD. If a memory card is not inserted, a prompt appears as a reminder that games can be saved with a memory card. An option is given in the next screen to recheck for the memory card. You may insert a memory card and choose OK or choose CANCEL and continue.

GAME SETUP MENU

New Game

Takes you to the character select menu. Use the directional buttons to view Littlefoot, Spike, Ducky and Cera. Once you have picked a character to play, press any button to begin the game. **NOTE:** each character has five levels that you must complete to finish the game.

To return to the Game Setup menu, press the START button, and select QUIT from the menu. This returns you to the opening title sequence. Press any button to bypass the opening logo screens and return to the Game Setup screen.

Load Game

Loads a previously saved game. Use the directional buttons to highlight one of your saved games, then press the X button to select a saved game to resume. When the character selection screen appears, choose a character and press any key to resume play at the next uncompleted level for that character. Choose CANCEL to return to the Game Setup menu.

Difficulty

Allows you to change the difficulty level of the gameplay for a new game only. There are three levels of difficulty to choose from: EASY, MEDIUM, and HARD. The easier the level, the more help Petrie™ gives you, and the more Treestars™ there are to eat. Use the directional buttons to highlight a difficulty level, and then press the X button to select. Use the ▲ button to return to the Game Setup menu.

Options

Displays the Options menu where you can adjust music or sound volume, turn the Vibration function on or off, or view the game credits.

To adjust the Music volume, highlight the MUSIC selection, then use the LEFT/RIGHT directional buttons to adjust the Music volume slider.

To adjust the Sound Effects volume, highlight the SOUND EFFECTS selection, then use the LEFT/RIGHT directional buttons to adjust the Sound Effects volume slider.

To turn the vibration function on or off, highlight the VIBRATION FUNCTION selection, then press the \times button to access the Vibration Function control screen. Highlight the ON or OFF selection, and press the \times button to make your selection. Use the Δ button to return to the Options menu.

To view the credits, highlight the CREDITS selection, then press the \times button. Press any key to return to the Options menu.

From the Options menu, use the Δ button to return to the Game Setup menu.

SAVING A GAME

At the end of each level you will be asked if you want to save your progress. Highlight either YES or NO, then press the \times button to make your selection. If you choose YES, progress for all four characters is saved along with the number of Treestars you've collected and the number of Tries you have left.

Save Game menu

The first time you save a new game, you will be asked to select a Memory Card slot in which to save your game. Use the directional buttons to highlight one of the four Memory Card slots. **WARNING:** If you choose a memory slot that already has a game saved in it, your new game will completely replace the old game. If available, choose an empty slot in which to save your game. Once you have selected a slot, press the \times button to save your game. After the game is saved, press the \times button again to continue playing. **NOTE:** The next time you are asked to save the game, your progress will automatically be updated and written into the slot you selected the first time.

PAUSING A GAME

Use the START button to pause gameplay at any time.

Pause Game menu

Three options are displayed. Use the directional buttons to highlight a selection, and press the \times button to make your choice.

Return to Game

Takes you back to the current game.

Restart Level

Exit Level

Allows you to exit the current game without saving and start back at the Character Selection screen.

HOW TO PLAY

Your prehistoric pals are lost in the Great Beyond! Help each character explore five different levels on an exciting journey back to the Great Valley™. Guide your favorite dinosaurs to tail whip, head butt, push and jump their way through all kinds of obstacles and puzzles. Carefully cross ravines of red lava. Jump and ride on tar bubbles and water geysers. Shoot cannon plants to remove roadblocks. Be careful not to fall off cliffs!

The goal is to navigate to the exit at the end of each level. Along the way, look for some fun "toys" to play with. If you need help, listen to Petrie's suggestions as he flies by.

TREESTARS™

As you travel through the levels, collect the Treestars scattered everywhere. To pick up a Treestar, just walk right over it and add it to your collection. Each Treestar color has a different value:

Green:	1 Treestar
Yellow:	5 Treestars
Red:	10 Treestars
Blue:	15 Treestars

The total of your Treestar collection is displayed in the upper left corner of the screen. An extra Try is awarded once you've collected 100 Treestars.

TRIES

"Tries" are the number of chances you get to beat a level. Each new game starts with three Tries. An extra Try is awarded for every 100 Treestars you collect. Tries are lost when you fall off cliffs, into the lava or water, or fail to avoid some other danger. Be careful, because when you run out of Tries the game is over!
